EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Linnebur on 8/4/05.

The application has been amended as follows: claims 1-2 have been canceled and new claim has been added.

Claim 3

A V-blade plow for use with an air seeder distribution system used for injecting dry granular material vertically downward into grooves formed in the ground comprising;

- a. downwardly, forwardly inclined and angularly disposed wing blades with leading edges for plowing, and elevated trailing edges,
- b. a plurality of circular tubes, attached adjacent to each other, having inlets connectable to a source of granular material transported by means of pressurized air, said plurality of circular tubes conform to said V-blade plow and terminate at varying distances along said wing blades with outlets positioned such that the granular material is directed downward and

Art Unit: 3671

c. a metal plate configured to provide structural support and a means of mounting said plurality of circular tubes to said V-blade plow

d. a plurality of replaceable knives mounted to an underside of said metal plate by direct connection to mounting tabs, said mounting tabs directly attached to the underside of said metal plate and positioned directly in front of the tube outlets, said knives configured to penetrate a compacted layer formed by the wing blades, and to form said groove below said compacted layer and,

e. a plurality of replaceable nozzles, each said nozzle attached directly to a tube outlet, and configured for granular material injection and to prevent soil from jamming up into said nozzles.

Conclusion
